

Coalition Organisations

Currently the UK Stroke Forum consists of over 30 organisations ranging from professional associations, charities and special interest groups.

National organisations which are committed to improving stroke care standards and are involved in stroke research are eligible to become a coalition member organisation of the UK Stroke Forum. Where organisations are smaller, based in a region or are active on a local level then affiliate organisational membership can be offered. Members of coalition organisations automatically qualify for discounted rates for the UK Stroke Forum conference. If you are interested in becoming a UKSF coalition organisation please contact ukstrokeforum@stroke.org.uk

The patient organisations in their part fulfil vital roles in providing services and information directly to stroke patients and carers, as well as fundraising for research and lobbying for improved statutory services. Some offer healthcare professionals stroke research funding and training opportunities.

Current UK Stroke Forum organisations include:

1. Association of Chartered Physiotherapists Interested in Neurology (www.acpin.net)
2. ARNI Institute (www.arni.uk.com)
3. British and Irish Orthoptic Society (www.orthoptics.org.uk)
