Opportunities for Stroke Research Funding

**Project Grants**
These grants encompass the whole spectrum of stroke research - from prevention and risk factors, through to treatment and rehabilitation, both in an acute setting and longer-term in the community. Applications are awarded annually in July.

*Up to £210,000 over three or five years.*

*Next deadline: February 2018*

**Postgraduate Fellowships**
These fellowships allow graduates from the nursing or allied health professions to study for a PhD, giving them the required skills to ultimately undertake an independent career in stroke research. Candidates conducting applied stroke research will also be considered.

*£35,000 per year up to a maximum of £105,000 over three to five years.*

*Next deadline: November 2017*

**Postdoctoral Fellowships**
These fellowships are awarded to postdoctoral candidates from the nursing or allied health professions, although candidates in applied stroke research will also be considered. They are intended to enable recipients to embark on an independent career in academic stroke research, and help to create future stroke research leaders.

*Up to £175,000 over three to five years.*

*Next deadline: Oct/Nov 2017*

Together we can conquer stroke

Priority Programme Awards
These awards are aimed at addressing critical gaps in stroke research evidence. The current round of the Priority Awards Programme is our second in the area of haemorrhagic stroke. The call is now closed for 2017/18. Awards will be made in Autumn 2017.

Lectureship Programme
These positions will play a critical role in building a vibrant community of clinical and non-clinical stroke researchers across the UK and creating the next generation of stroke research leaders. Numerous award types available, maximum amount for senior posts is up to £260,000 over five years or up to £215,000 over four years. Next deadline: October 2017

Joint Stroke Association/British Heart Foundation (BHF) Clinical Study in Stroke
This grant is awarded for a clinical study that must be directly related to stroke illness, and have a vascular focus. Up to £1.5 million over five years. Next deadline for outline applications: January 2018

Stroke Association/Medical Research Council (MRC) Clinical Research Training Fellowships
These fellowships allow clinically trained individuals to undertake training in stroke research. Visit the MRC website for more information.

Please help us to fund more vital research.
